

TOP GUN ARMWRESTLING TABLE

Thank you for purchasing the New Top Gun Armwrestling Table. It is like having 3 tables all in 1. The Armwrestling table is custom made of heavy duty materials and is made to last. This Armwrestling Table design has been in uses for over 20 yrs and it consist of 4 components, 1-Table Top, 2 Legs, and 1 Base. When assembled properly, this table will last for years in the armsport tournament environment.

The Top is 1 inch of plywood and redesigned for the 3 in1 table which will allow the elbow and pin pads to be 1)staggered for right hand competition or 2)staggered for left handed competition or 3)straight across for practice without moving the pads back and forth. The top is upholstered over with foam & vinyl and has side rails all the way around it and is padded on the competitors sides to keep the armwrestlers from getting injuries to the hips or side burses and scraps. The elbow & Pin pads are made of HD high density foam that last a long time and the elbow pads have a layer of neoprene rubber on top that gives it the extra firmness but not to hard. Special tool less wing nuts are used on the pads for quick change over. Great for competition.

The legs are 2 pieces of heavy steel tubing welded to 4" flat stock at each end for quick tear down and assembly of the arm wrestling table. The legs have been painted with powder coat which is a very durable paint and will last for many years.

The base is made of ¾ inch OSB wood and has been painted black, it is reinforced with 2x4's for a rock solid base which is required for use of this armwrestling table, it has been redesigned to fold in have for portability, storage, and shipping.
